

I am served by K-Love on the local FM translator because they provide community information about local events that will appeal to my demographic interest that no other station in our area does. This station provides music all day that most of my friends listen to. No other radio station in our area has been able to keep this style of music all day and stay in business on a local level. The service provided by K-Love serves a large part of the public, that smaller stations could not. Please allow this translation service to continue without interruption. Thank you for reading my comment.
